Polin: Studies in Polish Jewry Volume 18
2005-11-29 Jewish women's exclusion from the
public domains of religious and civil life has been
reflected in their near absence in the master

narratives of the East European Jewish past. As a result, the study of Jewish women in eastern Europe is still in its infancy. The fundamental task of historians to construct women as historical subjects, 'as a focus of inquiry, a subject of the story, an agent of the narrative', has only recently begun. This volume is the first collection of essays devoted to the study of Jewish women's experiences in Eastern Europe. The volume is edited by Paula Hyman of Yale University, a leading figure in Jewish women's history in the United States, and by ChaeRan Freeze of Brandeis University, author of a prize-winning study on Jewish divorce in nineteenth-century Russia. Their Introduction provides a much-needed historiographic survey that summarizes the major work in the field and highlights the lacunae. Their contributors, following this lead, have attempted to go beyond mere description of what women experienced to explore how gender constructed distinct experiences, identities, and meanings. In seeking to recover lost

achievements and voices and place them into a broader analytical framework, this volume is an important first step in the rethinking of east European Jewish history with the aid of new insights gleaned from the research on gender. As in earlier volumes of Polin, substantial space is given, in 'New Views', to recent research in other areas of Polish-Jewish studies, and there is a book review section.

Kistiakovsky Susan Eva Heuman 1998
Kistiakovsky railed against Lenin's concept of a vanguard party to lead the revolution and advocated a government based on respect for human rights and constitutional federalism. Heuman shows the fresh urgency of Kistiakovsky's ideas as countries of the former Soviet Union seek to establish precisely those values that he put forth 90 years ago.

Bulletin United States. Office of Education 1934
Konstruowanie historii Anna Peck Stosunek do własnej historii i roli dziejowej często różni się od sposobu jej postrzegania przez innych. Zjawisko kreowania wizji i interpretacji historycznych stanowi nieodłączny element procesu edukacyjnego. Percepcja oraz sposoby prezentacji polskiej historii i kultury w amerykańskich podręcznikach szkolnych i akademickich w zakresie przedmiotów historii powszechnej, historii europejskiej oraz historii cywilizacji zachodniej były w XX i na początku XXI wieku kształtowane pod wpływem zmieniającej się sytuacji społecznej i politycznej oraz dominujących tendencji naukowych. W koncepcjach filozoficznych i intelektualnych,

rozwijanych w Europie Zachodniej i Stanach Zjednoczonych od czasów oświecenia do końca okresu zimnej wojny, najczęściej wykluczono narody oraz państwa Europy Środkowej i Wschodniej z kręgu dominującej w świecie cywilizacji zachodniej. W konsekwencji Polska, jej historia i kultura były traktowane marginalnie. Autorka analizuje nie tylko zawartość podręczników, lecz także przyczyny, dla których ciągle jeszcze trudno znaleźć informacje m.in. na temat udziału Polaków w drugiej wojnie światowej, Katynia czy powstania warszawskiego.

The Jews in Poland and Russia Antony Polonsky 2010-06-17 In his three-volume history, Antony Polonsky provides a comprehensive survey—socio-political, economic, and religious—of the Jewish communities of eastern Europe from 1350 to the present. Until the Second World War, this was the heartland of the Jewish world: nearly three and a half million Jews lived in Poland alone, while nearly three million more lived in the Soviet Union. Although the majority of the Jews of Europe and the United States, and many of the Jews of Israel, originate from these lands, their history there is not well known. Rather, it is the subject of mythologizing and stereotypes that fail both to bring out the specific features of the Jewish civilization which emerged there and to illustrate what was lost.

Jewish life, though often poor materially, was marked by a high degree of spiritual and ideological intensity and creativity. Antony Polonsky recreates this lost world—brutally cut down by the Holocaust and less brutally but still seriously damaged by the Soviet attempt to destroy Jewish culture. Wherever possible, the unfolding of history is illustrated by contemporary Jewish writings to show how Jews felt and reacted to the complex and difficult situations in which they found themselves. This second volume covers the period from 1881 to 1914. It considers the deterioration of the position of the Jews during that period and the new political and cultural movements that developed as a consequence: Zionism, socialism, autonomism, the emergence of modern Hebrew and Yiddish literature, Jewish urbanization, and the rise of popular Jewish culture. Galicia, Prussian Poland, the Kingdom of Poland, and the Tsarist Empire are all treated individually, as are the main towns of these areas. Volume 1 covers

the period 1350–1881; Volume 3 covers 1914–2008.

The KGB's Poison Factory Boris Volodarsky 2013-11-30 In late November 2006 the world was shaken by the ruthless assassination in London of Alexander Litvinenko, a former Lt Col of the Russian security service (FSB). The murder was the most notorious crime committed by the Russian intelligence on foreign soil in over three decades. The author, Boris Volodarsky, who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko's widow, is a former Russian military intelligence officer and an international expert in special operations. His narrative reveals that since 1917 – beginning with Lenin and his Cheka – the Russian security services have regularly carried out bespoke poisoning operations all over the world to eliminate the enemies of the

Kremlin. The author proves that the Litvinenko's poisoning is just one episode in the chain of murders that continues until the present day. Some of these assassinations or attempted assassinations are already known, others are revealed here for the first time. Uniquely Volodarsky has had a personal involvement in almost every each of the 20 cases, from the radioactive thallium poisoning of the Soviet defector Nikolai Khokhlov in Frankfurt in September 1957 to the ricin "umbrella murder" of the Bulgarian dissident Georgi Markov in London in 1978. "Here, for the fan of murder thrillers and modern history alike, is a cracking good read. In brilliant light we see what lay for nearly a century behind the London polonium poisoning of British citizen Alexander Litvinenko, former Russian. It was just one recent hit by the world's most prolific serial killer -- the Russian state. With original research guided by his insider's eye and scholarly care, Boris Volodarsky recounts scores of murders. Assassination

emerges as state policy, as institutionalized bureaucracy, as day-to-day routine, as laboratory science, as a branch of medicine researching ways not to stave off death but to deliver it in apparently innocent or accidental forms, and as engineering technology, devising ever-new devices to meet each new requirement, from umbrella tips and cigarette cases and rolled-up newspapers -- to Litvinenko's teacup." Tennent H. Bagley, former CIA chief of Soviet Bloc counterintelligence.
