Pareto - Zywicki K. G. Saur Verlag GmbH & Company 2007-01-01 Based on the

'Bibliographic Reports' which were the general authority on bibliographies from 1959 to 1987, this work contains the records in cumulative form. It includes 82,609 titles and 119,417 bibliographic

entries with indexes that allow optimal access.

Guide to Microforms in Print 1995

New Challenges in Typology Patience Epps 2009 This volume continues the tradition of presenting the latest findings by typologists and field linguists, relevant to general linguistic theory and research methodology. Cross-linguistic studies based on large samples and in-depth studies of previously undescribed languages highlight new refinements and revisions to our current understanding of established categories and classifications.

Rewriting History in Soviet Russia R.

Markwick 2001-02-01 This book explores the political significance of the development of historical revisionism in the USSR under Khrushchev in the wake of the Twentieth Congress of the CPSU and its demise with the onset of the 'period of stagnation' under Brezhnev. On the basis of intensive

interviews and original manuscript material, the book demonstrates that the vigorous rejuvenation of historiography undertaken by Soviet historians in the 1960s conceptually cleared the way for and fomented the dramatic upheaval in Soviet historical writing occasioned by the advent of perestroika.

The Sea Power of the State S.G.

Gorshkov 2013-10-22 Admiral Gorshkov has transformed the Soviet fleet into a world sea power for the first time in Russian history. He is Russia's most brilliant naval strategist of all time. He has created the modern Soviet navy. His book examines the main components of sea power among which attention is focused on the naval fleet of the present day, capable of conducting operations and solving strategic tasks in different regions of the world's oceans, together with other branches of the armed forces and independently

Soviet Women on the Frontline in the Second World War R. Markwick 2012-06-26

This is the first comprehensive study in English of Soviet women who fought against the genocidal, misogynist, Nazi enemy on the Eastern Front during the Second World War. Drawing on a vast array of original archival, memoir, and published sources, this book captures the everyday experiences of Soviet women fighting, living and dying on the front.

Rosa Luxemburg: A Permanent Challenge for Political Economy Judith Dellheim

2016-09-09 The book is based upon a call for papers and a conference to mark the 100th anniversary of Rosa Luxemburg's principal work, *The Accumulation of Capital: A Contribution to an Economic Explanation of Imperialism*, published in 1913. Eleven contributors from five different countries come together to discuss

different issues and dimensions connected with Luxemburg's work and focus on its continuing relevancy. This collection investigates topics such as, the influences of Karl Marx and Maxim Kovalevsky, the imperialism debate in German social democracy, and the critical reception of Luxemburg's work from Marxist and feminist viewpoints. By positioning Luxemburg's work in a historical context, this book offers an accessible and timely insight into the significance of The Accumulation of Capital and, more importantly, demonstrates why Luxemburg's legacy should live on.

Major Business Organizations of Eastern Europe and the Commonwealth of Independent States 1992-93 G. C.

Bricault 2012-12-06 The second edition of Major Business Organisations of Eastern Europe and the Commonwealth of Independent Guide to the States provides

Leninskij vnešnepolitičeskij kurs KPSS v dejstrij 1980

The Palgrave Handbook of Leninist Political Philosophy Tom Rockmore

2018-12-19 This intellectually discomfiting, disturbingly provocative, yet still thoroughly scholarly Handbook reproduces the intellectual ferment that accompanied

the Russian Revolution including the wholly polarising effect at that time of Vladimir Ilyich Lenin. The Palgrave Handbook of Leninist Political Philosophy does not settle for one safe interpretation of the thought of this world-historic figure but rather revels in a clash of viewpoints. Most interestingly it presents a contrast between the Western editors who emphasise pure democracy and Marxian humanism with many of the contributing scholars who take a more sanguine view of the Leninist political project. Perhaps reflecting the current Western political crisis, some of the volume's other European and North American scholars more closely align with their colleagues from the Global South. Key Features: · Places particular emphasis on the key elements of Lenin's thought – the dictatorship of the proletariat (which is trenchantly defended), the nature of the dialectic and the New Economic Policy ·

Additional comprehensive coverage includes the theory of the party, Bolshevism, imperialism, and the class struggle in the countryside · Examines the relation of Lenin's thought to the ideas of his most influential contemporaries (including Luxemburg, Stalin and Trotsky) as well as the most eminent thinker to interpret Lenin since his death – György Lukács This Handbook is essential reading for scholars, researchers and advanced students in political philosophy, political theory, the history of political ideas, economics, international relations and world history. It is also ideal for the general reader who wishes to understand some of the most powerful ideas that have shaped the modern world and that may yet shake the world again.

The Emergence of Russian Constitutionalism 1900-1904 K. Fröhlich 2012-12-06 My interest in the topic of this book traces back

over more than ten years to my interest in the history of political parties in pre revolutionary Russia. To my late tutor Professor Reinhard Wittram, who guided me during my undergraduate and post-graduate days as a student at the University of Gottingen, owe a special gratitude for giving my interest its special focus. I am indebted to him for my academic training more than this book may indicate. He did not see the results of his influence, but he followed my preparatory work with both sympathy and critical attention. My thanks are due equally to Professors Hans Roos (Bochum) and Rudolf Vierhaus (Göttingen), whose constant advice and help meant continued encouragement. I am further obliged to Professors Dietrich Geyer (Tübingen) and Hans Kiesel (Oldenburg) and their critical reading of the 1973 draft of my book. In 1977/78, during my revision of the manuscript and its preparation for

publication, the most important suggestions came to me from many discussions deep into the night with my friend Jurgen Jahnke. To the many others whose names do not appear here owe my thanks for their help and encouragement. *The Encyclopaedia Britannica: A Dictionary Of Arts, Sciences, And General Literature*; Anonymous 2019-03-21 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United

States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. **International bibliography of periodical literature covering all fields of knowledge** 1982
Leninskij vnešnepolitičeskij kurs KPSS v dejstvii 1980
Proceedings of EECE 2019 Borodinec Anatolijs 2020-04-29 This book gathers the latest advances, innovations, and applications in the field of energy,

environmental and construction engineering, as presented by international researchers and engineers at the International Scientific Conference Energy, Environmental and Construction Engineering, held in St. Petersburg, Russia on November 19-20, 2019. It covers highly diverse topics, including BIM; bridges, roads and tunnels; building materials; energy efficient and green buildings; structural mechanics; fluid mechanics; measuring technologies; environmental management; power consumption management; renewable energy; smart cities; and waste management. The contributions, which were selected by means of a rigorous international peer-review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations.

Russia's Stillborn Democracy? Graeme J.

Gill 2000-03-23 The decade and a half since Gorbachev came to power has been a tumultuous time for Russia. It has seen the expectations raised by perestroika dashed, the collapse of the Soviet superpower, and the emergence of a new Russian state claiming to base itself on democratic, market principles. It has seen a political system shattered by a president turning tanks against the parliament, and then that president configuring the new political structure to give himself overwhelming power. These upheavals took place against a backdrop of social dislocations as the Russian people were ravaged by the effects of economic shock therapy. This book explains how these momentous changes came about, and in particular why political elites were able to fashion the new political system largely independent of the wishes of the populace at large. It was this relationship between powerful elites and

weak civil society forces which has led to Russian democracy under Yeltsin being still born.

Education in the Soviet Union Mervyn Matthews 2012-05-04 This book provides a comprehensive survey of the successes and failures of education and training in the Khrushchev and Breshnev years. The author gives an objective assessment of the accessibility of the main types of institution, of the contents of courses and of Soviet attempts to marry the functioning of their education system to their perceived economic and social needs. In addition the book has many useful and original features: For ease of analysis it summarises in diagram form complex statistics which are not usually brought together for so long a time period. It provides a systematic account of educational legislation; Matthews' comparison of series of official decrees will allow subtle shifts in

government policy to be accurately charted. Particular attention is also paid to a number of issues that are often neglected: the employment problems of school and college graduates; the role and professional status of teachers; political control and militarisation in schools; the close detail of higher education curricula; and the rate of student failure. Of special value is the chapter on those educational institutions which are often omitted from Western studies and which are hardly recognised as such in most official Soviet sources.
