Political Thought From Machiavelli to Stalin

E. A. Rees 2004-03-12 This is the first book in English to explore the relationship between Stalin's ideas and methods, and the practices advocated by Machiavelli and those associated with 'Machiavellian' politics. It advances the concept of 'revolutionary Machiavellism' as a way of understanding a particular strand of revolutionary thought from the Jacobins through to Leninism and Stalinism. By providing a wide-ranging survey of European political thought in the Nineteenth - and early Twentieth-century, E. A. Rees locates the Bolshevik tradition within the wider European tradition.

Writing the Great War Christoph Cornelissen 2020-11-01 From the Treaty of Versailles to the 2018 centenary and beyond, the history of the First World War has been continually written and rewritten, studied and contested, producing a rich historiography shaped by the social and cultural circumstances of its creation. Writing the Great War provides a groundbreaking survey of this vast body of work, assembling contributions on a variety of national and regional historiographies from some of the

most prominent scholars in the field. By analyzing perceptions of the war in contexts ranging from Nazi Germany to India's struggle for independence, this is an illuminating collective study of the complex interplay of memory and history.

Linguistic and Cultural Studies: Traditions and Innovations

Andrey Filchenko 2017-09-18 This book features contributions to the XVIIth International Conference "Linguistic and Cultural Studies: Traditions and Innovations" (LKTI 2017), providing insights into theory, research, scientific achievements, and best practices in the fields of pedagogics, linguistics, and language teaching and learning with a particular focus on Siberian perspectives and collaborations between academics from other Russian regions. Covering topics including curriculum development, designing and delivering courses and vocational training, the book is intended for academics working at all levels of education striving to improve educational environments in their context – school, tertiary education and continuous professional development.

The New Age of Russia Birgit Menzel

2012 Occult and esoteric ideas became deeply embedded in Russian culture long before the Bolshevik Revolution. Everyone interested in the occult and esoteric will appreciate this book, because it documents their continued importance in Russia and raises new issues for research and discussion.

About Russia, Its Revolutions, Its Development and Its Present Michal Reiman 2016-07-29 "The author analyzes modern Russian history from a new perspective. Due to the ideological heritage of the XIX and XX century, the social settings of the sociopolitical history of the USSR (1917-1945) have not been fully identified. Detailed examination of ideological and political concepts shows that the revolution of 1917 became not a middle class, proletarian movement, but rather a plebeian one. The misjudgment by the new power enabled growth but caused tremendous losses of human lives and material damages. Socialization of economy and strict centralization led to a new social structure and established terror as an instrument for social reorganization. WWII revealed the necessity of a correction of these developments, but the events of the Cold War circumvented any further considerations"--Provided by publisher.

Revolution and Culture Zenovia A. Sochor 1988 Zenovia A. Sochor here assesses one of the most important debates within the Bolshevik leadership during the early years of Soviet power-that between A. A. Bogdanov and V. I. Lenin. Once comrades-in-arms, Bogdanov and Lenin became political rivals prior to the October Revolution. Their disagreements over political and cultural issues led to a split in the Bolshevik Party, with Bogdanov spearheading the party's left-wing faction and attracting a following of

notable intellectuals. Before Lenin died in 1924, however, he had succeeded in shaping Soviet society according to his own vision, and today Bolshevism is commonly identified with Leninism while Bogdanovism is little known. Sochor provides the first full exposition in English of Bogdanov's views, which, she asserts, must be understood to appreciate the choices available and the paths not taken during the formative years of the Soviet regime.

Lenin Rediscovered Lars T. Lih 2006 This commentary to Lenin's landmark "What is to be Done?" (1902) provides hitherto unavailable contextual information about Lenin's outlook and aims that undermines previous interpretations. It challenges established views about Marxism, 'revolutionary Social Democracy' and Bolshevism.

Empiriomonism Alexander Aleksandrovich Bogdanov 2020-01-13 Empiriomonism is Alexander Bogdanov's monistic philosophy of being and cognition, which he believed is consistent with both modern science and Marxism. It is of the same order as materialist systems and is the ideology of the productive forces of society.

Russia's Role in the Contemporary International Agri-Food Trade System Stephen K. Wegren 2021-11-11 This Open Access book analyses the emergence of Russia as a global food power and what it means for global food trade. Russia's strategy for food production and trade has changed significantly since the end of the Soviet period, and this is the first book to take account of Russia's rise as a food power and the global implications of that rise. It

includes food trade policy and practice, and developments in regional food trade. This book will be of interest to academics and practitioners in agricultural economics, international trade, and international food trade.

Russian Second-language Textbooks and Identity in the Universe of Discourse

Olga Mladenova 2004 This book provides an overview of the changes of the Second-Language Learning discursive formation and the Identity discursive formation in Russian history. It proposes an explanatory model in which small-scale linguistic detail is joined with larger-scale language units in order to illuminate matters of cultural importance in their linguistic guise.

Identities and Foreign Policies in Russia, Ukraine and Belarus

Stephen White 2014-08-20 What does 'belonging to Europe' mean for the European Union's eastern neighbours? Over the past two decades Russia, Ukraine and Belarus have experienced dramatic and sometimes bitterly contested changes in their relations with the European Union and with each other. Marking a decisive step forward in the literature, White and Feklyunina explain the major shifts in their foreign policies in this volume by tracing their identity debates throughout the post-Soviet period. Based on extensive empirical research over more than a decade, including interviews, focus groups and national surveys as well as printed sources in several languages, this field-defining study demonstrates how the divergent articulations of identity vis-à-vis 'Europe' in the three countries, coupled with divergent views of Europe and the EU, shape their foreign policy preferences in a 'Europe' that is reconsidering its own boundaries and place in a changing world.

Arcticness Ilan Kelman 2017-08-14

Climate change and globalisation are opening up the Arctic for exploitation by the world – or so we are told. But what about the views, interests and needs of the peoples who live in the region? This volume explores the opportunities and limitations in engaging with the Arctic under change, and the Arctic peoples experiencing the changes, socially and physically. With essays by both academics and Arctic peoples, integrating multiple perspectives and multiple disciplines, the book covers social, legal, political, geographical, scientific and creative questions related to Arcticness, to address the challenges faced by the Arctic as a region and specifically by local communities. As well as academic essays, the contributions to the book include personal reflections, a graphic Topics covered in the essays include indigenous identity and livelihoods such as reindeer herding, and adapting to modern identities; a graphic essay on the experience of Arctic indigenous peoples in residential schools; the effects of climate change; energy in the Arctic; and extractive industries and their impacts on local communities.essay, and poetry, to ensure wide and varied coverage of the Arctic experience – what the contributions all have in common is the fundamental human perspective. The book includes reflections on the future of Arcticness, engaging with communities to ensure meaningful representation and as a counterpoint to the primacy of environmental, national and global issues.

Russian Foreign Policy in the 21st Century R. Kanet 2010-10-29 After the collapse of the Soviet Union expectations were high that a 'new world order' was emerging in which Russia and the other former Soviet republics would join the Western community of nations. That has not

occurred. This volume explains the reasons for this failure and assesses likely future developments in that relationship

Patronal Politics Henry E. Hale 2014-10-31 This book proposes a new way of understanding events throughout the world that are usually interpreted as democratization, rising authoritarianism, or revolution. Where the rule of law is weak and corruption pervasive, what may appear to be democratic or authoritarian breakthroughs are often just regular, predictable phases in longer-term cyclic dynamics - patronal politics. This is shown through in-depth narratives of the post-1991 political history of all post-Soviet polities that are not in the European Union. This book also includes chapters on czarist and Soviet history and on global patterns.

The Chechens Amjad M. Jaimoukha 2005 This volume provides a ready introduction and practical guide to the Chechen people, including chapters on history, religion, politics, economy, culture, literature and media.

Education in the Soviet Union Mervyn Matthews 2012-05-04 This book provides a comprehensive survey of the successes and failures of education and training in the Khrushchev and Breshnev years. The author gives an objective assessment of the accessibility of the main types of institution, of the contents of courses and of Soviet attempts to marry the functioning of their education system to their perceived economic and social needs. In addition the book has many useful and original features: For ease of

analysis it summarises in diagram form complex statistics which are not usually brought together for so long a time period. It provides a systematic account of educational legislation; Matthews' comparison of series of official decrees will allow subtle shifts in government policy to be accurately charted. Particular attention is also paid to a number of issues that are often neglected: the employment problems of school and college graduates; the role and professional status of teachers; political control and militarisation in schools; the close detail of higher education curricula; and the rate of student failure. Of special value is the chapter on those educational institutions which are often omitted from Western studies and which are hardly recognised as such in most official Soviet sources. *Soviet Women on the Frontline in the Second World War* R. Markwick 2012-06-26 This is the first comprehensive study in English of Soviet women who fought against the genocidal, misogynist, Nazi enemy on the Eastern Front during the Second World War. Drawing on a vast array of original archival, memoir, and published sources, this book captures the everyday experiences of Soviet women fighting, living and dying on the front.

Civil Society in Putin's Russia Elena A. Chebankova 2013 "Unlike other books on civil society in Russia which argue that Russia's civil society is relatively weak, and that democratisation in Russia went into reverse following Vladimir Putin's coming to power, this book contends that civil society in Russia is developing in a distinctive way. It shows that government and elite-led drives to encourage civil society have indeed been limited, and that the impact of external promotion of civil society has also not been very

successful. It demonstrates, however, that independent domestic grassroots movements are beginning to flourish, despite difficulties and adverse circumstances, and that this development fits well into the changing nature of contemporary Russian society."--Publisher's website.

Russian Modernity D. Hoffmann
2000-07-05 Russian Modernity places Imperial and Soviet Russia in a European context. Russia shared in a larger European modernity marked by increased overlap and sometimes merger of realms that had previously been treated as discrete entities: the social and the political, state and society, government and economy, and private and public. These were attributes of Soviet dictatorship, but their origins can be located in a larger European context and in the emergence of modern forms of government in Imperial Russia.

Culture of the Future Lynn Mally
1990-01-01 "Mally's book moves the study of an important revolutionary cultural experiment from the realm of selective textual analysis to wide-ranging social and institutional history. It reveals vividly the social-cultural tensions and values inherent in the Russian revolutionary period, and adds authoritatively to the rapidly emerging literature on cultural revolution in Russia and in the modern world at large."--Richard Stites, Georgetown University

Putin's Wars Marcel H. Van Herpen
2015-07-01 This fully updated book offers the first systematic analysis of Putin's three wars, placing the Second Chechen War, the war with Georgia of 2008, and the war with Ukraine of 2014–2015 in their broader historical context. Drawing on extensive original Russian sources, Marcel H. Van Herpen analyzes in detail how Putin's wars were prepared and conducted, and why they led to allegations of war crimes and genocide. He shows how the conflicts functioned to consolidate and legitimate Putin's regime and explores how they were connected to a fourth, hidden, "internal war" waged by the Kremlin against the opposition. The author convincingly argues that the Kremlin—relying on the secret services, the Orthodox Church, the Kremlin youth "Nashi," and the rehabilitated Cossacks—is preparing for an imperial revival, most recently in the form of a "Eurasian Union." An essential book for understanding the dynamics of Putin's regime, this study digs deep into the Kremlin's secret long-term strategies. Readable and clearly argued, it makes a compelling case that Putin's regime emulates an established Russian paradigm in which empire building and despotic rule are mutually reinforcing. As the first comprehensive exploration of the historical antecedents and political continuity of the Kremlin's contemporary policies, Van Herpen's work will make a valuable contribution to the literature on post-Soviet Russia, and his arguments will stimulate a fascinating and vigorous debate.

Language and Power in the Creation of the USSR, 1917-1953

Michael G. Smith 1998-01-01 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

Integrating Engineering Education and Humanities for Global Intercultural Perspectives

Zhanna Anikina 2020-05-06 This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives (IEEHGIP 2020), held on 25–27 March 2020. The conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives. Focusing on, but not limited to, Content and Language Integrated Learning (CLIL) in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education.

Russia's Homegrown Insurgency

Strategic Studies Institute 2012-10 The three papers offered in this monograph provide a detailed analysis of the insurgency and counterinsurgency campaigns being conducted by Islamist rebels against Russia in the North Caucasus. This conflict is Russia's primary security threat, but it has barely registered on Western minds and is hardly reported in the West as well. To overcome this neglect, these three papers go into great detail concerning the nature of the Islamist challenge, the Russian response, and the implications of this conflict. This monograph, in keeping with SSI's objectives, provides a basis for dialogue among U.S., European, and Russian experts concerning insurgency and counterinsurgency, which will certainly prove useful to all of these nations, since they will continue to be challenged by such wars well into the future. It is important for us to learn from the insurgency in the North Caucasus, because the issues raised by this conflict will not easily go away, even for the United States as it leaves Afghanistan.

Stalin and the Literary

Intelligentsia, 1928-39 A. Kemp-Welch 2016-07-27 Stalin's fascination with writers was fully reciprocated as the many 'Odes to Stalin' show. During the 1970s a hugely elaborated system was established for the regulation of belles-lettres based on institutions, ideas and individuals. This original study, ten years in preparation, is based on extensive access to Soviet archives. Much new evidence has been uncovered about the inner workings of cultural policy in the Stalin period and documents by Stalin himself are published for the first time.

"Tsar and God" and Other Essays in Russian Cultural Semiotics Boris Andreevich Uspenskiĭ 2012 Featuring a number of pioneering essays by the

internationally known Russian cultural historians Boris Uspenskij and Victor Zhivov, this collection includes a number of essays appearing in English for the first time. Focusing on several of the most interesting and problematic aspects of Russia's cultural development, these essays examine the survival and the reconceptualization of the past in later cultural systems and some of the key transformations of Russian cultural consciousness. The essays in this collection contain some important examples of Russian cultural semiotics and remain indispensable contributions to the history of Russian civilization.

Theory of Elasticity and Plasticity
Valentin Molotnikov 2021 This book serves as a core text for university curricula in solid body mechanics and, at the same time, examines the main achievements of state of the art research in the mechanics of elastic and non-elastic materials. This latter goal of the book is achieved through rich bibliographic references, many from the authors' own work. Distinct from similar texts, there are no claims in this volume to a single universal theory of plasticity. However, solutions are given to some new problems and to the construction of models useful both in pedagogic terms for students and practical terms for professional design engineers. Examples include the authors' decisions about the Brazilian test, stability of rock exposure, and pile foundations. Designed for both upper-level university students and specialists in the mechanics of deformable hard body, the material in this book serves as a source for numerous topics of course and diploma concentration.

Imaging Russia 2000 Anna M. Lawton 2004 "Anna Lawton deftly tells two stories--one about the evolution of

Russian film since the collapse of the Soviet Union in 1991, and the other about Russian life during that same period. She managed to capture a vivid portrait of Moscow of the 1990s, and to remind us that the Soviet past remains omnipresent in the new Russia. *Russia 2000: Film and Facts* is a must read for anyone who cares about Russia, or about film." Blair Ruble, Director, The Kennan Institute of the Woodrow Wilson Center.

Beyond Frozen Conflict Thomas de Waal 2021-03-15 This book is the first to give an up-to-date account of all five unresolved conflicts of the post-Soviet space in Eastern Europe in an analytically consistent manner.

The Use of History in Putin's Russia James C. Pearce 2020-10-06 History is not just a study of past events, but a product and an idea for the modernisation and consolidation of the nation. 'The Use of History in Putin's Russia' examines how the past is perceived in contemporary Russia and analyses the ways in which the Russian state uses history to create a broad coalition of consensus and forge a new national identity. Central to issues of governance and national identity, the Russian state utilises history for the purpose of state-building and reviving Russia's national consciousness in the twenty-first century. Assessing how history mediates the complex relationship between state and population, this book analyses the selection process of constructing and recycling a preferred historical narrative to create loyal, patriotic citizens, ultimately aiding its modernisation. Different historical spheres of Russian life are analysed in-depth including areas of culture, politics, education, and anniversaries. The past is not just a state matter, a socio-political issue linked to the modernisation process, containing

many paradoxes. This book has wide-ranging appeal, not only for professors and students specialising in Russia and the former Soviet Space in the fields of History and Memory, International Relations, Educational Studies, and Intercultural Communication but also for policymakers and think-tanks.

History Of Soviet Atheism In Theory And Practice And The Believer -

Dimitry V Pospelovsky 1988-07-29

Re-Constructing Grassroots Holocaust Memory Irina Rebrova 2020-10-26

The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time. It aims to find out how such individual initiatives correspond to the official Russian hero-orientated concept of remembering the Second World war with almost no attention to the memory of war victims, including Holocaust victims. North Caucasus became the last address of thousands of Soviet Jews, both evacuees and locals. While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period, local activists and

historians together with the members of Jewish communities preserved Holocaust memory by installing small obelisks at the killing sites, writing novels and making documentaries, teaching about the Holocaust at schools and making small thematic exhibitions in the local and school museums. Individual types of grass roots activities in the region on remembering Holocaust victims are analyzed in each chapter of the book.

Acoustic Emission Zinoviy Nazarchuk 2017-01-23 This monograph analyses in detail the physical aspects of the elastic waves radiation during deformation or fracture of materials. It presents the methodological bases for the practical use of acoustic emission device, and describes the results of theoretical and experimental researches of evaluation of the crack growth resistance of materials, selection of the useful AE signals. The efficiency of this methodology is shown through the diagnostics of various-purpose industrial objects. The authors obtain results of experimental researches with the help of the new methods and facilities.
