The Mediterranean World in Late Antiquity

Averil Cameron 2015-04-29 This thoroughly revised and expanded edition of *The Mediterranean World in Late Antiquity*, now covering the period 395-700 AD, provides both a detailed introduction to late antiquity and a direct challenge to conventional views of the end of the Roman empire. Leading scholar Averil Cameron focuses on the changes and continuities in Mediterranean society as a whole before the Arab conquests. Two new chapters survey the situation in the east after the death of Justinian and cover the Byzantine wars with Persia, religious developments in the eastern Mediterranean during the life of Muhammad, the reign of Heraclius, the Arab conquests and the establishment of the Umayyad caliphate. Using the latest in-depth archaeological evidence, this all-round historical and thematic study of the west and the eastern empire has become the standard work on the period. The new edition takes account of recent research on topics such as the barbarian 'invasions', periodization, and questions of decline or continuity, as well as the current interest in church councils, orthodoxy and heresy and the separation of the miaphysite church in the sixth-century east. It contains a new introductory survey of recent scholarship on the fourth century AD, and has a full bibliography and extensive notes with suggestions for further reading. *The Mediterranean World in Late Antiquity 395-700 AD* continues to be the benchmark for publications on the history of Late Antiquity and is indispensable to anyone studying the period.

David Starkey's Music and Monarchy David Starkey 2013-07-04 For the kings and queens of England, a trumpet fanfare or crash of cymbals could be as vital a weapon as a cannon. Showcasing a monarch's power, prestige and taste, music has been the lifeblood of many a royal dynasty. From sacred choral works to soaring symphonies, *Music and Monarchy* looks at how England's character was shaped by its music. To David Starkey and Katie Greening, works like Handel's *Water Music* and Tallis's *Mass for Four Voices* were more than entertainment - they were pieces signalling political intent, wealth and ambition. Starkey and Greening examine England's most iconic musical works to demonstrate how political power has been a part of musical composition for centuries. Many of our current musical motifs of nationhood, whether it's the Last Night of the Proms or football terraces erupting in song, have their origins in the way the crown has shaped the national soundtrack. Published to coincide with a major BBC series, *Music and Monarchy* is not a book about music. It is a history of England written in music, from our leading royal historian.

Dialoguing in Late Antiquity Averil Cameron

2014 Averil Cameron refutes an argument by some scholars that Christians did not dialogue after a wall of silence came down in the fifth century AD. Cameron shows that in late antiquity and throughout Byzantium Christians debated and wrote philosophical, literary, and theological dialogues, and she makes a case for their centrality in Greek literature.

Ukraine and Europe Giovanna Brogi Bercoff 2017-01-01 *Ukraine and Europe* challenges the popular perception of Ukraine as a country torn between Europe and the east. Twenty-two scholars from Europe, North America, and Australia explore the complexities of Ukraine's relationship with Europe and its role the continent's historical and cultural development. Encompassing literary studies, history, linguistics, and art history, the essays in this volume illuminate the interethnic, interlingual, intercultural, and international relationships that Ukraine has participated in. The volume is divided chronologically into three parts: the early modern era, the 19th and 20th century, and the Soviet/post-Soviet period. *Ukraine in Europe* offers new and innovative interpretations of historical and cultural moments while establishing a historical perspective for the pro-European sentiments that have arisen in Ukraine following the Euromaidan protests.

Valences of the Dialectic Fredric Jameson 2009 One of the most accomplished literary and cultural critics in the world, Fredric Jameson returns to the philosophy of the dialectic in a grand and nuanced study of the concept and those who have developed it. The question of the dialectic remains at the center of contemporary theoretical debates: Is it Hegelian and idealistic? To what degree is it central to Marxism? Is a materialist dialectic really possible? How damaging are the "poststructuralist" critiques of the dialectic by Deleuze, and Laclau and Mouffe? *Valences of the Dialectic* addresses these questions, and studies individual thinkers both dialectical and anti-dialectical, from Hegel and Fichte to Heidegger, Sartre, Derrida, Deleuze and Lacan.

Compendium of General Sociology Vilfredo Pareto 1980 *Compendium of General Sociology* was first published in 1980. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. Vilfredo Pareto (1848-1923) was a social scientist who played a significant role in the development of sociology,

economics, and political science. Society, to Pareto, was governed principally by non-rational forces, and he was critical of all rational explanations and ideologies. He contributed to the development of functionalist and systems theories of social and economic life and was a major influence on the work of Talcott Parsons. He was also an advocate of empirical and experimental methods in the social sciences as well as of mathematical sociology and economics. Pareto's classic work, the *Trattato di Sociologia Generale* (1916), was published by his student Giulio Farina in 1920. Farina was able to rely upon Pareto for corrections and approval of the abridgement. Now, for the first time, this abridged work is available in an English translation, as the *Compendium of General Sociology*. Elisabeth Abbott participated in the Livingston-Bongiorno translation of the complete *Trattato* in the 1930s, and she has drawn upon that notable translation (now out of print) in her work on the *Compendium*. A substantial introduction by sociologist Joseph Lopreato of the University of Texas provides a historical context for Pareto's work and calls attention to the main lines in his thought.

Intellectuals in the Modern Islamic World Stephane A. Dudoignon 2006-09-27 Incorporating a rich series of case-studies covering a range of geographical areas, this collection of essays examines the history of modern intellectuals in the Islamic world throughout the twentieth century. The contributors reassess the typology and history of various scholars, providing significant diachronic analysis of the different forms of communication, learning, and authority. While each chapter presents a separate regional case, with an historically and geographically different background, the volume discloses commonalities, similarities and intellectual echoes through its comparative approach. Consisting of two parts, the volume focuses first on al-Manar, the influential journal published

between 1898 and 1935 that inspired much imagination and arguments among local intelligentsias all over the Islamic world. The second part discusses the formation, transmission and transformation of learning and authority, from the Middle East to Central and Southeast Asia. Constituting a milestone in comparative studies of the modern Islamic world, this book highlights the range of and transformation in the role of intellectuals in Islamic societies.

Rolling Out the Map of Justice Jörgen Ödalen 2008

Dreamworld and Catastrophe Susan Buck-Morss 2002 The dream of the twentieth century was

the construction of mass utopia. As the century closes, this dream is being left behind; the belief that industrial modernization can bring about the good society by overcoming material scarcity for all has been challenged by the disintegration of European socialism, capitalist restructuring, and ecological constraints. The larger social vision has given way to private dreams of material happiness and to political cynicism. Developing the notion of dreamworld as both a poetic description of a collective mental state and an analytical concept, Susan Buck-Morss attempts to come to terms with mass dreamworlds at the moment of their passing. She shows how dreamworlds became dangerous when their energy was used by the structures of power as an instrument of force against the masses. Stressing the similarities between the East and West and using the end of the Cold War as her point of departure, she examines both extremes of mass utopia, dreamworld and catastrophe. The book is in four parts. "Dreamworlds of Democracy" asks whether collective sovereignty can ever be democratic. "Dreamworlds of History" calls for a rethinking of revolution by political and artistic avant-gardes. "Dreamworlds of Mass Culture" explores the affinities between mass culture's socialist and capitalist forms. An "Afterward" places the book in the historical context of the author's collaboration with a group of Moscow philosophers and artists over the past two tumultuous decades. The book is an experiment in visual culture, using images as philosophy, presenting, literally, a way of seeing the past. Its pictorial narratives rescue historical data that with the end of the Cold War are threatened with oblivion and challenge common conceptions of what this century was all about.

Interpreting Late Antiquity Glen Warren Bowersock 2001 The era of late antiquity—from the middle of the third century to the end of the eighth—was marked by the rise of two world religions, unprecedented political upheavals that remade the map of the known world, and the creation of art of enduring glory. In these eleven in-depth essays, drawn from the award-winning reference work *Late Antiquity: A Guide to the Postclassical World*, an international cast of experts provides essential information and fresh perspectives on this period's culture and history.

Claudian: Poetry and Propaganda at the Court of Honorius Alan Cameron 1970 As a propagandist Claudian offers unique illumination of the intrigues inside and between the rival courts of Milan and Constantinople in the decisive years following the death of Theodosius the Great. Though a Greek by birth, Claudian revived Latin poetry with a flair not seen since the Silver Age - and not to be seen again. This book studies Claudian's political and propagandist techniques, his accounts of Stilico's campaigns and rivals, his debt to Greek rhetorical theory and contemporary poetry, his culture, attitudes to Rome and its problems and, not least, his position as a pagan at a Christian court. An epilogue traces his influence in medieval times and on English literature. Alan Cameron is Anthon Professor of Latin Language and Literature at Columbia University.

Gordy LaSure's passionate about film. He eats film, he drinks film, and sometimes he'll even watch a film. But most of all he loves talking to people about film: whether a comely student with low confidence and a father complex, a Studio 'development' exec who doesn't trust his own judgement, or the countless people Gordy LaSure's encountered in his capacity as the web moderator on an Excessive Sweating Discussion Forum. Gordy LaSure's always talking about films and how they'd be a shit ton better if only people would pull their asses out of their ears and listen to Gordy LaSure. The voyage of this book can be categorised as an attempt to understand How In Hell Film Works. Why are some films bad, and some films terrible? How come just a handful of films (Titanic, Porky's, Dirty Harry) are any good at all? Gordy'll tell you How and Why, and he'll give you a slug of Wherefore on the side. And he doesn't shoot from the hip; he shoots from the gut.
